

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

WEBSTER'S DICTIONARY.

The following are a part of the numerous recommendations received by the publishers. The estimation in which Dr. Webster's Dictionary is held by gentlemen of erudition, appears from the following testimonials.

The merits of Dr. Webster's American Dictionary of the English Language, are very extensively acknowledged by that part of the community for whose immediate use it was designed. We regard it as a great improvement on all the works which have preceded it. The etymological department throws new and striking light on the history of language; the vocabulary is enlarged by the addition of many thousand words, comprising the technical words of science and the arts, words not found in other dictionaries, and many of them the words for the precise meaning of which the general reader is most frequently at a loss; the orthography of several classes of words, instead of following cumbrous and obsolete modes of spelling, is conformed to the present usage of the best writers; and the definitions have a character of discrimination, copiousness, perspicuity, and accuracy, not found, we believe, in any other dictionary of the English language.

The foregoing commendation is signed by

Jeremiah Day, *D. D. President of Yale College;*

Simeon Baldwin, *late Judge of the Superior Court;*

David Daggett, *Judge of the Superior Court;*

Benjamin Silliman, *L. L. D. Professor of Chemistry, &c. Yale College;*

William Bristol, *Judge of the District Court;*

Rev. Nathaniel W. Taylor, *S. T. D.;*

James L. Kingsley, *Professor of Hebrew &c., Yale College;*

Chauncy A. Goodrich, *Professor of Rhetoric, &c., Yale College;*

Denison Olmstead, *Professor of Mathematics, &c., Yale College;*

In the preceding recommendation of the American Dictionary, &c. signed Mr. Day and others, we cheerfully concur:

Joshua Bates, *President of the Middlebury College;*

John Hough, *Professor of Languages, do.;*

William C. Fowler, *Professor of Chemistry, &c., do.;*

Edward Turner, *Professor of Math. and Nat. Phil., do.*

The recommendation of President Day and others, distinguished gentlemen, would be decisive with me as to the merit and utility of Dr. Webster's works. I also have had occasion to use and examine his quarto Dictionary, and the octavo abridgment of it by Mr. Worcester. Each of them appears to me to be executed with great care, learning, and ability. I cheerfully concur in the opinion that they form a very valuable addition to our lexicography, and deserves the patronage of the American public.

JOSEPH STORY, Judge of the Supreme Court of the U. S. and Prof. of Law in the University of Cambridge.

I agree with Mr. Justice Story in the sentiments which he has expressed, and I am satisfied that an attempt to reduce into a system, the doubtful orthography of the language, and to diminish the number of its anomalies, would meet with the approbation of the public: and that no one is better qualified for the task than Dr. Webster.

WILLIAM CRANCH,
Judge of the Supreme Court in the District of Columbia.

The following testimonial is subscribed by the members of Congress whose names are annexed :

“ The subscribers highly appreciate Dr. Webster's purpose and attempt to improve the English language, by rendering its orthography more simple, regular, and uniform, and by removing difficulties arising from its anomalies. It is very desirable that one standard dictionary should be used by the numerous millions of people who are to inhabit the vast extent of territory belonging to the United States; as the use of such a standard may prevent the formation of dialects in states remote from each other, and impress upon the language *uniformity* and *stability*. It is desirable also that the acquisition of the language should be rendered easy, not only to our own citizens, but to foreigners who wish to gain access to the rich stores of science which it contains. We rejoice that the *American Dictionary* bids fair to become such a standard, and we sincerely hope that the author's elementary books for primary schools and academies will commend themselves to the general use of our fellow citizens.”

WASHINGTON, Feb. 1831.

PREFACE.

THIS volume is designed to furnish counting houses and primary schools, with a vocabulary of the words which constitute the body of the English language, with a very brief definition of each. The orthography and pronunciation are, according to those in my Quarto Dictionary, with some corrections. The better to present to the student the true pronunciation, the words are divided into syllables, and the syllable on which the stress is laid is marked with an accent, or with a point over the vowel. This division of syllables, with the key at the top of each page, will guide the inquirer to the true pronunciation.

As it is not possible to comprise all the derivative, as well as primitive words, with all technical terms, in a book so small as to accommodate the common people of this country, the more difficult and uncommon technical words are omitted, as are some of the participles of verbs, which are regular in their formation. Those which are irregular, or not of easy formation, are inserted.

The anomalous sounds of the vowels are designated by points, or marks, as are certain distinctions in the use of the consonants. The unaccented vowels are left without any directions for the pronunciation; as it is not easy, or even possible, to express on paper the nice distinctions which the ear recognizes in a rapid enunciation of slight sounds. The true pronunciation of such vowels is best caught by the ear; and it is deemed worse than useless to encumber words with a multiplicity of marks or figures. The unaccented vowels are mostly short, and if they have their long sound, it is slightly pronounced.

Differences in orthography and pronunciation, which amount to thousands in the English books, present to the lexicographer, difficulties and perplexities, which no other person can duly estimate. Many of the discrepancies are evidently owing to mere negligence in the authors, who have

followed local usage or particular authorities, without observing the settled analogies of the language. Such errors as appear clearly to have proceeded from such negligence, I have corrected. In other cases, there is no analogy by which doubts can be removed; and the English books differ so much that they furnish no rule of decision. Hence it follows necessarily that my own decisions must clash with some of them; but I have attempted, in all cases, to bring words, as much as possible, under the control of well established principles.

While I was engaged in writing the Quarto Dictionary and in the supervision of the press, I was so much occupied with the more difficult departments of the work, the etymologies and definitions, that some errors in orthography escaped observation, which an exclusive attention to that subject would have prevented. These I have corrected; and a further consideration of some points, has induced me to make a few alterations. Hence some discrepancies will be found between that work and this. Other discrepancies will appear between this work and the octavo edition, some of which I should have prevented, if I had been able to superintend the preparation of the copy for the press. But the number of these I am not able to ascertain; as it is not probable that I shall ever again read the whole of that or of the quarto edition. My intense and long continued labors render repose essential to my health and comfort, during the short period of life which remains.

But the reader is informed that wherever discrepancies appear between this work and the larger ones, this duodecimo volume, my last work, all written and corrected by myself, is to be considered as containing the pointing, orthography, and pronunciation which I most approve.

The general rule which I have observed in settling the orthography of certain classes of words, is *Uniformity* in words of like formation; that is, a rule without an exception; for exceptions give to learners more trouble than rules.

EXAMPLES.

1. Favor, candor, ardor, labor, color, clamor, parlor, error, tenor, honor, splendor, rigor, armor, vigor, vapor, valor, inferior, superior, &c., and the

derivatives in the same manner without *u*, that the pupil need not be troubled with the *u* in labour, and the omission of it in laborious; *u* in inferior, and not in inferiority, &c.

2. Music, public, cubic, and all similar words from the Greek and Latin, and some formed in analogy with them, without *k*. Most of these admit the terminations, *al*, and *ally*; as musical, musically; and it is inconvenient to add *k* to the primitive word, musick, and be obliged to omit it in musical. Besides, the mark used in my books on *c*, when it has the use of *k*, supersedes the necessity of *k*.

Exceptions.—Words which may be used as verbs, retain *k*, on account of the past tense and participles; as traffick, trafficked; frolick, frolicking.

Words of Teutonic and Gothic origin, having never lost *k*, and not admitting an additional syllable, retain *k*; as hemlock, fetlock, wedlock. Monosyllables are also excepted; as sick, lick, lock; most of which may be used as verbs.

3. Defense, expense, offense, pretense, recompense, with *s*; not solely because the Latin originals have *s*, but because the derivatives, defensive, expensive, offensive, pretension, recompensing, must be written with *s*.

4. Blamable, abatable, debatable, movable, ratable, salable, reconcilable, and all similar words without *e*, except after *c* and *g*; as noticeable changeable.

5. Befall, miscall, install, recall, forestall, enthrall, retain the *ll*; for if one *l* is omitted in the primitive word, it must be restored in the participles, befalling, &c.; and it is a general rule in the language, that *a* before *ll*, has its broad sound; (mall and shall excepted.) Hence, if written befall, miscall, the pronunciation may be easily mistaken. For this reason *ll* should be retained in the nouns installment, intrallment.

6. Foretell, distill, instill, fulfill, retain *ll* in the primitive, for it must be retained in the participles and other derivatives; as foretelling, distiller, &c. In this case the pupil has only to learn that the spelling of the original words, tell, still, fill, is retained in all the derivatives.

7. Connection, deflection, inflection, reflection, follow the spelling of the verbs, connect, deflect, inflect, reflect. Complex and reflex are considered as the primitives of a different analogy, and the common spelling is retained

8. All verbs, formed from the Latin and Greek *izo*, and others formed in analogy with them, are written with the termination *ize*, as generalize, legalize, moralize. See the *Elementary Spelling Book*, Sect. 137, 138. This termination and *ism*, never change the accent of the original word.

Words directly from the French *priser*, and others from the French, generally retain the letter *s*; as surprise, enterprise, comprise, devise, revise merchandise.

9. When verbs of two or more syllables, end in a single unaccented consonant, preceded by a single vowel, the final consonant is not doubled in the derivatives. Thus we should write appaeled, canceled, caviling, caviler, duelist, libeled, libelous, equaled, rivaled, traveler, traveling, quarreling, &c. See a list of these verbs in the *Elementary Spelling Book* Sect. 149.

This rule, always admitted to be just, has been violated, probably from mere heedlessness; there being no more propriety in doubling the consonant in caviling, libeling, than in limiting, pardoning, delivering.

Dull, skill, will, full, &c. retain *ll* in all their derivatives, to prevent the inconvenience of exceptions to a rule. I see no reason for omitting one *l* in dullness, fullness, skillful, willful, which would not require the omission of one *s* in blissful, distressful.

The orthography of dispatch, instructor, visitor, which Johnson altered without any good reason, not only in opposition to the practice of all that cluster of distinguished authors who adorned the beginning of the last century, but in contradiction of his own practice, in some of his writings, has been restored.

The orthography of a few words, the etymology of which has been mistaken, as furlow, chimist, melasses, mold, cigar, redout, redoutable, controller, and a few others, has been corrected. The usual orthography is palpably erroneous.

In many words which belong to no class, and which are differently written in our books, I have adopted the orthography which is most simple, or most agreeable to the etymology or to the pronunciation.

New Haven, Dec. 1829.

DIRECTIONS.

This mark (') always indicates the accented syllable. When it is placed immediately after a vowel, that vowel has its first or long sound; thus, ha'tred, me'ter, b'fer, ho'ly, hu'man, decry'. This sound is also designated by a horizontal mark over the vowel, thus: fáce, méte, lce, cold, rúde, cry'.

When the mark of accent follows a consonant, the preceding vowel, if single, and not pointed, is short; as in ab'sent, defend', predict', alledg'e, convuls'e.

When the accent is placed after, or in a syllable that contains a pointed vowel, or a diphthong, that vowel or diphthong has its proper sound; as in deb'f', remóv'e, adjoin', annoy', avow', abound', rejoic'e.

The vowel *e*, at the end of a word, forms no syllable in any word of English origin; but when it follows a consonant preceded by a single vowel, it indicates that vowel to be long, as in *late*, *mete*, *note*, *tune*, *gyve*. When it follows two or more consonants, the vowel of that syllable, if unpointed, is usually short, as in *abridge*, *lodg*.

A double accent before *ci* and *ti*, indicates that these letters are pronounced like *sh*, and close the syllable; thus, vi'cious, facti'tious, ini'tial, are pronounced vish'ous, factish'ous, inish'al.

When a word of more syllables than one has a pointed vowel, and no mark of accent, the pointed vowel designates the accented syllable. Some words, mostly compounds, have two syllables with pointed vowels; in which case there is little difference of accent.

When of two vowels together, one only is pointed, that has the sound indicated by the point, and the other is mute; as *cóurse*, *bráid*, *hóarse*, *frúit*, *alláy*, *flów*.

The digraphs *ee*, *ea*, *ei*, *ie*, when neither vowel is pointed, have the sound of *e* long—*ei* and *ey*, the sound of *a* long, and *ea*, that of *o* long.

Letters in the italic character are silent.

The letters *gh* are never pronounced, except in a few words which are noted in their place.

In all words beginning with *wh*, the *h* precedes *w* in pronunciation, except in a few words which are noted in their place.

H after *r* is always silent, as in *rhetoric*.

G and *K* before *n* are always silent, as in *gnat*, *know*.

I after *l* has usually a liquid sound, like *y* in *alien*, pronounced *alyen*.

W before *r* is mute, as in *wrest*, pronounced *rest*.

E final in the terminations *ble*, *cle*, *dle*, *fle*, *gle*, *kle*, *ple*, *tle*, *zle*, is silent.

The combinations *ce*, *ci*, *ti* before a vowel are usually pronounced as *sh*; as in *octaceous*, *gracious*, *ingratiante*, pronounced *cetashus*, *grashus*, *ingrashate*. It is said in some English books, that, in many such words, *c* or *t* alone has the sound of *sh*, and therefore *ingratiante* is to be pronounced *ingrasheate*. This is a great mistake, it is the combination of *c* or *t* with the following vowel, that forms the sound of *sh*; and the measure of English verse, in all the best English poetry, requires this combination to be thus pronounced.

DIRECTIONS.

The sound of *s* before *r*, is that of *ai*; as in *snare*, *parent*, *prepare*.
The combination *tion* usually forms a single syllable, pronounced *shon* or *shun*, as in *motion*, *conviction*.

The combination *sion* forms in like manner, a single syllable, pronounced *shun*, as in *confession*. But after a vowel, it is usually pronounced *zhun*, as in *fusion*, *contusion*. A few exceptions to these rules are noted in their place; as is the pronunciation of the combinations *sier*, *zier*.

Ph have the sound of *f*, as in *philosophy*, pronounced *filosofy*.

P before *s* is mute, as in *psalm*, *psalter*.

C, after *s*, and before *e*, *i*, and *y* is usually silent, as in *scene*, *science*, *Scythian*, pronounced *sene*, *sience*, *Sythian*. Before *k*, *c* is considered as silent, as in *sick*, *lock*.

Ou and *ow*, when *o* is not pointed, are diphthongs, and pronounced uniformly, as in *sound*, *vow*.

The diphthongs *oi* and *oy* have their proper sound, as in *join*, *joy*.

Au and *aw* are digraphs, and have the sound of broad *a* in fall.

Two accents between *n* and *g*, or after *g*, indicate that *ng* are pronounced with a close articulation, as in *fin"ger*, *lon"ger*.

The pronunciation of the vowel in a derivative word is usually the same as in the primitive. Thus, *firm* being pronounced *ferm*, the derivatives are to be pronounced in the same manner; as *fermess*.

As asterisk or star, after the past tense or participle of a verb indicates that the final letter *d* may be and usually is blended in pronunciation with the preceding syllable, the vowel *e* being dropped, as claimed for *claimed*. After *k*, *p*, *q*, *s*, *sh*, *x*, *d* is pronounced as *t*; as *deckt* for *decked*, &c. But in derivatives, the letters *ed* usually form a distinct syllable. Thus, though *blessed* is pronounced *blest*, yet *blessedness* must be pronounced in three syllables; *confessed* may be in two syllables; but *confessedly* must be pronounced in four syllables. This rule applies also to adjectives.

Words with this mark † are considered as unsettled in pronunciation.

U is pronounced *yu* in *nature*, *capture*, and some words of similar formation; but, as no two writers or speakers agree in the words to which this pronunciation extends, no rule can be given on the subject.

ABBREVIATIONS.

<i>a.</i>	stands for adjective, or attribute.
<i>ad.</i> or <i>adv.</i>	for adverb, or modifier.
<i>con.</i>	for connective, or conjunction.
<i>ex.</i>	for exclamation, or interjection.
<i>n.</i>	for noun, or name.
<i>prep.</i>	for preposition.
<i>p.</i>	for preterit, past tense, or passive participle; or both when alike
<i>pp.</i>	for participle, perfect, or active.
<i>ppr.</i>	for participle of the present tense.
<i>pron.</i>	for pronoun, or substitute.
<i>v. i.</i>	for verb intransitive.
<i>v. t.</i>	for verb transitive.

DICTIONARY

OF

THE ENGLISH LANGUAGE.

A B A

A B D

Bar, fall, what, prey, marine, pin, bird, m'ive,

A *a.* contraction of *an*, *one*, and used before a consonant, as a bird.

A-back', *ad.* back, backward, behind.

Ab'-a-cus, *n.* an arithmetical table.

A-bâft, *ad.* towards the stern of a ship.

A-ban'-don, *v. t.* to forsake wholly, desert.

A-ban'-don-ed,* *p.* forsaken, deserted, very wick-

A-ban'-don-ing, *ppr.* forsaking, renouncing. [ed.]

A-ban'-don-ment, *n.* entire desertion.

A-bâse, *v. t.* to bring low, humble, cast down.

A-bâ'-sed,* *p.* brought low, humbled, disgraced.

A-bâse-ment, *n.* the act of humbling, low state.

A-bâ-sing, *ppr.* humbling, depressing, bringing low.

A-bash', *v. t.* to put to the blush, to confound.

A-bash'-ed,* *p.* put out of countenance.

A-bash'-ing, *ppr.* putting to shame or confusion.

A-bash'-ment, *n.* astonishment, confusion.

A-bâ-ta-ble, *a.* that may be abated, defeated, remitted.

A-bâte, *v.* to decrease, lessen, pull down, fail as a writ; remit as a tax. (Con.)

A-bâ'-ted, *p.* lessened, lowered, taken off.

A-bâte-ment, *n.* a sum abated, an allowance, decrease, a remitting as of a tax, failure as of a writ, the removing of a nuisance. [ting.]

A-bâ'-ting, *ppr.* pulling down, defeating, remit-

Ab'-at-tis, *n.* branches of trees sharpened.

Ab'-ba, *n.* father, a scriptural word for father

Ab'-ba-cy, *n.* the possessions of an abbot.

Ab'-bat'-l-cal, *a.* pertaining to an abbey.

Ab'-bess, *n.* the governess of a nunnery.

Ab'-bey, *n.* the residence of an abbot or monks.

Ab'-bot, *n.* the head of a society of monks.

Ab-bre'-vi-ate, *v. t.* to shorten, abridge, cut off.

Ab-bre'-vi-a-ted, *p.* shortened, reduced in length.

Ab-bre'-vi-a-ting, *ppr.* shortening, abridging.

Ab-bre'-vi-a'-tion, *n.* the act or art of shortening.

Ab-bre'-vi-a-tor, *n.* one who shortens or abrid-

Ab-bre'-vi-a-ture, *n.* abridgment. [gea.]

Ab'-di-cant, *a.* abdicating, renouncing.

Ab'-di-cate, *v. t.* to abandon an office, or power, without a formal resignation.

Ab'-di-ca-ted, *p.* renounced, abandoned.

Ab'-di-ca-ting, *ppr.* relinquishing without a formal resignation.

Ab-di-ca'-tion, *n.* the deserting of a public trust.

Ab'-di-ca-tive, *a.* causing or implying abdication.

Ab-do'-men, *n.* the lower part of the belly.

Ab-dom'-in-al, *a.* belonging to the lower belly.

Ab-dûce, *v. t.* to separate, draw away.

Ab-du'-cent, *a.* drawing or pulling away.

Ab-due'-tion, *n.* the act of drawing away.

Bar, fall, what, prey, marine, pin, bird, move,

A-be-ce-da-ri-an, *n.* one who teaches or is learning the alphabet.
A-bed', *adv.* in bed, on the bed.
Ab'er-da-vin, *n.* the siskin, a song bird.
Ab'er-rance, *n.* a wandering, deviation.
Ab'er-rant, or **ab'er-ring**, *a.* going astray.
Ab-or-ra-tion, *n.* act of wandering, deviation.
A-bet', *v. t.* to encourage, help, support.
A-bet'-ment, *n.* encouragement, support.
A-bet'-ted, *p.* aided, encouraged to a crime.
A-bet'-ting, *ppr.* aiding or encouraging to a crime.

Rail-way, } port the wheels of vehicles with heavy loads.

Sib'-yl-line, *a.* pertaining to the Sibyls, certain females of antiquity, who are said to have uttered prophecies in verse, which were written on leaves of trees.

Note. In this work, an attempt has been made to reduce certain classes of words to uniformity of orthography. If any mistakes have escaped notice, they cannot be numerous.

In a few words, with the initial syllables, *em*, *en*, *im*, *iz*, there are diversities of orthography in authors so numerous and respectable, that I have not ventured to omit either one or the other mode of spelling. The following are here given in the orthography which I prefer:—embody, embolden, emboss, embowel, embower, empoison, embase, empower; imbank, imbitter, impale, impassion, imparlance, implead, impanuel; enchant, encumber, enhance, enlist, entreat, entrance, entwine; incage, incase, ingraft, inclose, inquire, insnare, indorse, insure, intrust, re-enforce.

Stu-pen'-dous, *a.* astonishing, amazingly great.

Stu-pen'-dous-ly, *adv.* so as to excite astonishment.

ENGLISH MEASURE OF LENGTH.

NOTE.—The measures marked with an asterisk are not used in the United States.

3 barley corns	1 inch
12 inches	1 foot
3 feet	1 yard
1-2 yds	1 pole, perch, or rod
40 rods or perches	1 furlong
8 furlongs	1 mile
4 inches	1 hand
6 feet	1 fathom
3 miles	1 league

60 nautical or geographical miles 1 degree.

69 1-3 statute miles 1 degree nearly.

NOTE.—The weights and measures of the United States, are the same as the standard weights and measures in England.

CLOTH MEASURE.

2 1-4 inches	1 nail
4 nails	1 quarter
4 quarters	1 yard
3 quarters	1 ell Flemish
5 quarters	1 ell English
6 quarters	1 ell French

SQUARE MEASURE.

144 inches	1 foot
9 feet	1 yard
30 1-4 yards	1 pole
40 poles or rods	1 rood
4 roods	1 acre

Gunter's chain for measuring land, contains 100 links, each 7 inches 92 decimals, which make 4 rods or perches, 22 yards, or 66 feet. Hence an acre contains 10 square chains, 160 square rods, 4840 square yards, 100,000 square links.

WINE MEASURE.

4 gills	1 pint
2 pints	1 quart
4 quarts	1 gallon
42 gallons	1 tierce
1 1-2 tierce, or 63 gal.	1 hogshead
1 1-3 hogshead, or 84 gal.	1 puncheon
1 1-3 puncheons, or 126 gal.	1 pipe
2 pipes	1 tun
231 cubic inches	1 gallon
10 gallons	1 anker*
18 gallons	1 runlet*
31 1-2 gallons	1 barrel

ALE AND BEER MEASURE.

2 pints	1 quart
4 quarts	1 gallon
9 gallons	1 firkin
2 firkins	18 gal. 1 kilderkin*
2 kilderkins	36 gal. 1 barrel
1 1-2 barrel	54 gal. 1 hogshead
1 1-3 hogshead	72 gal. 1 puncheon
1 1-2 puncheon	108 gal. 1 butt

The ale gal. contains 282 cubic inches.

NOTE.—The hogshead of 63 gallons and the puncheon of 84 gallons are not used with us. The cask of 108 or 110 gallons is called a hogshead or a puncheon.

DRY MEASURE.

8 pints	1 gallon
2 gallons	1 peck
4 pecks	1 bushel
4 bushels	1 coom
2 cooms	1 quarter*
5 quarters	1 wey*
2 weys	1 last*

The gallon contains 272 1-4 cubic inches Winchester measure.

TABLE OF TROY WEIGHT.

As used by Goldsmiths.

24 grains gr.	1 pennyweight dwt.
20 dwt.	1 ounce oz.
12 oz.	1 pound lb.

As used by Apothecaries.

20 grains	1 scruple \ominus
3 \ominus	1 dram ζ
8 ζ	1 ounce \mathfrak{z}
12 \mathfrak{z}	1 pound lb.

TABLE OF AVOIRDUPOIS WEIGHT.

16 drams	1 oz.
16 oz.	1 lb.
28 pounds	1 quarter gr.
4 qrs.	1 hundred cwt.
20 cwt.	1 ton
175 troy pounds is	144 pounds avoirdupois
175 troy ounces	192 avoirdupois
1 pound troy	5760 grains
1 lb. avoird.	7000 grains
1 ounce avoird.	contains 437 1-2 grains
1 dram avoird.	contains 27 34-375 grs.
1 troy pound contains	13.oz. 2-651428576
	drams avoirdupois.
1 avoirdupois lb.	contains 1 lb. 2 oz. 1 dwt.
	16 grains troy.

For some purposes the troy grain is thus divided.

The grain into 20 mites
 The mite into 24 droits
 The droit into 20 periets
 The periet into 20 blanks

The Dealers in Wool in England use the following Weights:—

The sack containing	2 weights*
The weigh	6 1-2 tods*
The tod	2 stones*

The stone	2 cloves*
The clove	7 pounds
12 sacks make a last	or 4368 pounds
56 lb. of old hay	or 60 lb. of new hay make a
	truss*

40 lb. of straw make a truss
 36 trusses make a load of hay or straw
 14 lb. make a stone
 5 lb. of glass make a stone.

NOTE.—These weights are not used in America.

The old Paris pound was to the English troy pound as 21 to 16, and to the avoirdupois pound as 27 to 25. It therefore contained 7560 grains troy. The pound was divided into 2 marcs, the marc into 8 ounces, the ounce into 8 gros or drams, the dram into 3 deniers or pennyweights.

measure is a meridional circle of the earth, which has been, for this purpose, accurately ascertained by men of science, and particularly in 1797, by the mensuration of degrees of latitude between Dunkirk and Barcelona. The whole circle, divided into 40 million parts, or the quadrant of 90 degrees, into 10 million parts, gives the unity of length, called a *meter*, which is equal to 36 inches French, and 11,296 lines, equal to 39 inches and 371 decimal parts English.

	<i>Eng. In.</i>	<i>Dec.</i>
A millim'eter* is the 1000th part of a meter		039371
A centim'eter the 100th part of a meter		39371
A decim'eter the 10th part of a meter		3 93710
A METER		39 37100
A decam'eter 10 meters		393 71000
A Hecatom'eter 100 meters		3937 10000
A Chiliom'eter† 1000 meters		39371 00000
A myriom'eter 10,000 meters		393710 00000
A grade or degree of the meridian equal to 100,000 meters, or 1,100th of the quadrant		39371000 00000

* The new French denominations are reduced to English orthography and accentuation.

† Ch have the sound of k.

The meter thus being in English inches, 39371 or 3 feet, 3 inches, and 371 decimals.

	<i>M's.</i>	<i>Fur.</i>	<i>Yds.</i>	<i>Ft.</i>	<i>In.</i>	<i>Dec.</i>		<i>M's.</i>	<i>Fur.</i>	<i>Yds.</i>	<i>Ft.</i>	<i>In.</i>	<i>Dec.</i>
The decam'eter is	0	0	10	2	9	7	The grade or decimal degree of the meri- dian	62	1	23	2	8	
The hecatom'eter	0	0	109	1	1								
The chiliom'eter	0	4	213	1	10	2							
The myriom'eter	6	1	156	0	6								

MEASURES OF CAPACITY.

A cube whose side is one-tenth of a meter, that is, a cubic decimeter, constitutes the unity of measures of capacity. It is called a *liter*, and contains 61 cubic inches and 028 decimals.*

	<i>Eng. Cubic In.</i>	<i>Dec.</i>
A millil'iter or 1,1000th part of a liter		06103
A centil'iter 1,100th of a liter		61023
A decil'iter 1,10th of a liter		6,10235
A lit'er, a cubic decimeter		61,02800
A decal'iter 10 liters		610,28000
A hecatol'iter 100 liters		6102,80000
A chiliol'iter 1000 liters		61023,00000
A myriol'iter 10,000 liters		610280,00000

The English pint, wine measure, contains 28 cubic inches, and 875 decimals. The liter therefore is 2 pints and nearly one-eighth of a pint.—Hence

A decal'iter is equal to Gal. 2 and 64,44,231 cubic inches, more than 9 quarts.

A Hecatol'iter Gal. 26,4,44-231 cubic inches.

A chiliol'iter Gal. 264 and 44-231 cubic inches.

* Authorities do not perfectly agree in the fractions. Pinkerton gives 0242 as the decimals of this measure.

WEIGHTS.

The unity of weight is a *gram*. It is precisely the weight of a quantity of pure water equal to a cubic centimeter, which is the 1,100th of a meter, and is equal to 15 grains and 444 decimals troy.

			<i>Gr.</i>	<i>Dec.</i>
A mill'igram	is	1-1000th of a gram		0,0154
A cent'igram		1-100th of a gram		0,1544
A de'cigram		1-10th of a gram		1,5444
A gram.		a cubic centimeter		15,4440
A dec'agram		10 grams		154,4402
A hec'togram		100 grams		1544,4023
A chil'ogram		1000 grams		15444,0234
A myr'iogram		10,000 grams		154440,2344
A gram		being equal to 15 grains,	444 decimals troy.	
A decagram	6 dwt.	10 gr.	44 dec.	equal to 5 drams 65 dec.
	avoirdupois			<i>lb. oz. dr.</i>
A hectogram	equal to	0 3 2	5	avoirdupois
A chilogram		2 3 5		avoirdupois
A myriogram		22 1 . 15		avoirdupois
100 myriograms	make a tun,	wanting 32 lb. 8.		

LAND MEASURE.

The unity is an *ars* which is a square decameter, equal to 3 perches 95 decimals. The *de'ciare* is a tenth of the *ars*—the *cent'iare* is a hundredth of the *ars*, and equal to a square meter. The *mill'iare* is 1-1000th of the *ars*. The *dec'are* is equal to 10 *ares*; the *hec'tar* to 100 *ares* and equal to 2 acres, 1 rood, 35 perches, 4 decimals English. The *chil'are* is equal to 1000 *ares*, the *myriare*, to 10,000 *ares*.

For fire-wood the *stere* is the unity of measure. It is equal to a cubic meter, containing 35 cubic feet English, and 3171 decimals. The *de'cestare* is the 10th of a *stere*.
